

PRODUCT SAFETY & HYGIENE POLICY

- ❖ We, Cosmo Films Limited are India's premier export oriented enterprise engaged in the manufacturing of BOPP films to be used for food packaging & other applications.
- ❖ We are committed to produce safe, legal & quality products that will meet or exceed the customer's requirements.
- ❖ We shall strive to achieve this through our world-class facilities, dedicated and trained personnel & continuous improvement programs. This policy shall be understood by all supervisory and relevant personnel and implemented accordingly.
- ❖ As an important link in the total food chain, we accept our responsibility in processing, monitoring raw material into hygienic and safe products for food packaging.
- ❖ We are committed to implement HACCP defined by Codex Alimentarius Commission to ensure that all hazards to product safety and integrity are identified and appropriate controls are established.
- ❖ Being the industry leader we are committed to preserving environment and ecological balance of the surroundings and ensure that we surpass the applicable and statutory environmental standards.

This policy shall be communicated throughout the company and reviewed periodically for continuing suitability.
